Same Work. A Lot More Business.

What Changes When The Right Eyes Look At Your Business

Picture your business a few months from now.

The phone rings while you're on a job. Your customer still gets an answer, and the appointment lands on your calendar.

A customer from last spring gets a text from you, in your voice, right when they need you again. They book.

You open one screen and see exactly where your money comes from.

And money that's been sitting in your business all along starts coming in.

The Tools Were Never The Magic

Tonight you learned the basics. You saw how simple each piece is.

But knowing AI doesn't change a business. Neither does finding more hours. Jamon, who runs Gotta Call Jack with his son Chase, said it plainly to Jimmy:

> *"With AI by itself, or GoHighLevel by itself without you, I think it would have failed."*
> Jamon, Gotta Call Jack

What changed his business was Jimmy, an experienced marketer, looking at it. He dug in, learned the business from the inside, and set everything up like part of the team.

> *"You took the time to understand what we're trying to accomplish, what our goals are, what our challenges are."*
> Jamon

Through a marketer's eyes, things change fast.

It Started With A Meeting

Two meetings with Jimmy, and the leaks came into view: the name, the website, the follow-up, the phones, three options on every quote.

Then we built it with them. In a couple of months, Gotta Call Jack went from about $15,000 a month to over $50,000. **Same work.** Jamon doesn't have to answer the calls anymore. And his son Chase just bought a house.

Now Your Business Gets The Same Eyes

At the very least, sit down with us. The meeting finds every leak in your business, puts a number next to it, and hands you the plan. Then 90 days with us in your corner.

Or have us build it with you, the way we did for Jamon. Every tool covered. Same 90 days.

Why Only 11 Builds

We're two people, Jimmy and Paul, and we do every one ourselves. Two people can only do this well for so many businesses at once. Tomorrow, we start on the businesses of everyone who said yes tonight.

Turn this over. Pick your door, sign your name, and bring it to the back of the room. →

YOUR MAXIMUM LEVERAGE BUSINESS BREAKTHROUGH

ENROLLMENT FORM

Yes, Jimmy And Paul. I'm In!

I KNOW there's money already sitting in my business: in my prices, my customer list, every call and every follow-up. I want it found and put to work.

I KNOW it starts with one meeting, where every leak in my business gets found, gets a number next to it, and goes in order into my plan.

I KNOW my first 90 days in the Maximum Leverage Mastermind are free, with Jimmy and Paul beside me every week. After that, it's $497 a month, only if I stay. You'll email me before it starts, and I keep everything either way.

AND I CAN'T WAIT TO:

- Have every call answered, day or night, without picking up the phone.
- Watch customers come back and send their friends, on their own.
- See my numbers on one screen and know exactly where my money comes from.
- Get my evenings back, and still bring home more.

Here's The Door I'm Choosing:

☐ **Build It With Me** **$4,997**

- You find it and build it with me: my story, website, follow-up, phones and numbers.
- The found money, and new customers from more than one place, so the phone keeps ringing.
- Every tool it runs on is covered: hosting, CRM, texting, my AI phone agent. I won't pay out of pocket for any of it.
- Only 11 Build spots, because it's just the two of you. I want one.

☐ Or two payments: $2,500 tonight, $2,500 in 30 days.

☐ **I'll Run With It** **$997**

Find it and hand me the plan. I'll build it myself, with 90 days of the mastermind behind me.

What we agree on is what we build: in writing, with a timeline, signed by both of us.

Name _____ Business _____

Phone _____ Email _____

Website _____ Date _____

Signature _____

Bring this to the back of the room. Hand it to Jimmy or Paul. The card reader's right there.
